Radiation Oncology Research Division

INVITED SPEAKER SEMINAR SERIES 2018-2019

Smilow Center for Translational Research

8th Floor Conference Room 8-146

12-1pm

September 27, 2018
Felix Y. Feng, MD
Vice Chair, Translational Research
Dept. of Radiation Oncology
Associate Professor, Radiation Oncology, Urology, & Medicine
UC San Francisco
“Understanding the Prostate Cancer Genome: From Biomarker Discovery to Clinical Application”

October 18, 2018
Arta M. Monjazeb, MD, PhD
Associate Professor
Dept. of Radiation Oncology
UC Davis
“Paradoxical effects of Inflammation on Cancer Immunotherapy”

November 29, 2018
Dan Theodorescu, MD, PhD
Paul A. Bunn, Jr. Endowed Chair in Cancer Research
Professor of Surgery and Pharmacology Director
University of Colorado Comprehensive Cancer Center
“Translating Cancer Biology into Novel Therapies”

January 3, 2019
Giorgio Trinchieri, MD
Program Director, Cancer Inflammation Program
NIH Distinguished Investigator
NIH/NCI
“Cancer and Microbiome”

January 24, 2019
Gal Shafirstein, DSc
Professor of Oncology
Director of PDT Clinical Research
Department of Cell Stress Biology
Roswell Park Comprehensive Cancer Center
“Interstitial Photodynamic Therapy Dosimetry – From the Clinic to Bench and Back.”

January 31, 2019
Hideho Okada, MD, PhD
Director, Brain Tumor Immunotherapy Center and Professor in Neurology
UC San Francisco
“Brain Cancer Immunotherapy”

February 28, 2019
Nicole L. Simone, MD
Margaret Q. Landenberger Associate Professor
Jefferson Breast Care Center
Jefferson Hospital
“Harnessing metabolic function to impact both tumor progression and radiation response”

March 28, 2019
Marjan Boerma, PhD
Associate Professor
Pharmaceutical Sciences
University of Arkansas for Medical Sciences
“Adverse effects of ionizing radiation in the heart: studies in animal models.”

April 25, 2019
Waldemar Debinski, MD, PhD
Professor of Cancer Biology, Radiation Oncology, Immunology and Bacteriology
Wake Forest School of Medicine
“Targeted Cytotoxic Therapy for Malignant Gliomas”

May 30, 2019
Charles Limoli, PhD
Professor & Vice Chair of Academic Affairs
Department of Radiation Oncology
UC Irvine
“Multiple strategies for resolving neurocognitive complications associated with cranial radiotherapy”
